“A Startling Fact About Japanese Tattoos”

"Possibly The Most Permanent Mistake Of Your Life..."

Check out these beautiful Japanese characters:

愛 馬鹿 勇氣

They all look good, don't they?

Anyone would be proud to tattoo themselves with one of these...

...until they find out that two characters in the center mean “fool” or “idiot”.
But, by then it could be too late.

The danger, when choosing a Japanese character tattoo is two-fold...

1. The tattooist is unlikely to know a Japanese kanji character from Egyptian hieroglyphics
2. All Japanese characters look nice, so how can you tell what you're really getting?

What is the solution?

Simple: Don't even think about getting a Japanese tattoo until you have a copy of myJapaneseTattoo.com.

myJapaneseTattoo makes choosing the perfect Japanese kanji easy.

Don't settle for some design pushed on you by the tattoo parlor...

...know what you want before you even walk through the door and save thousands not having to get an incorrect tattoo removed.

Need more proof?...

“In The News”

From the Japan Times, December 31st, 2006:

"Foreigners looking like fools with goobledygook tattoos"

“...Pop diva Britney Spears, for example, is said to have the character *hen* inscribed on her derriere. Ms. Spears' intention may have been to convey an aura of mystery, but to Japanese its meaning is closer to ***weird*** or ***perverted...***”

- From [The Japan Times Online](#)

“Protect Yourself”

To put it in perspective, you know those funny English tee shirts that the Japanese wear (that we all have a good chuckle about)?

Tee shirts emblazoned with slogans like “Cucumber Sexy Girl Frying Pan”?

Well, imagine if you have that tattooed on your body...

Don't make a permanent mistake, get the perfect Japanese tattoo and wear it with confidence. Select from over 100 of the best and most meaningful designs. Grab a copy now: myJapaneseTattoo.com
